

Children and Young People's Profile for Greater Gorbals

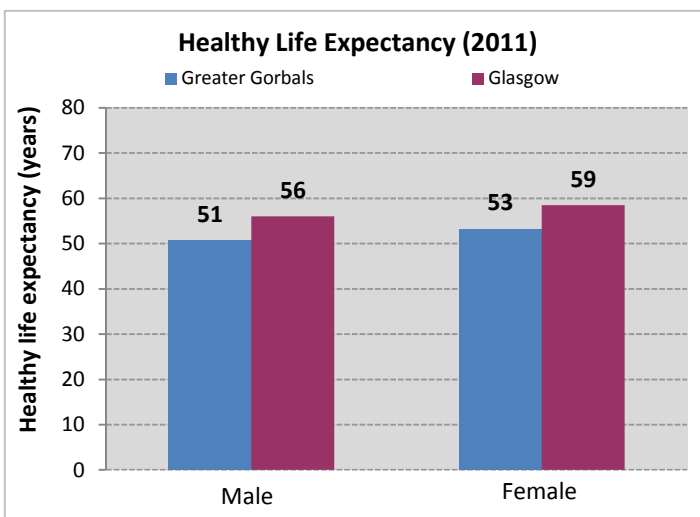

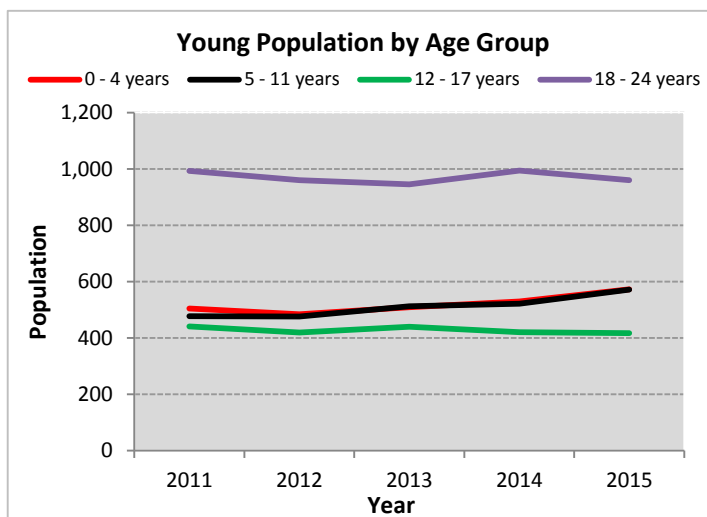

Greater Gorbals has a population of 2,522 children and young people (aged 0-24 years).

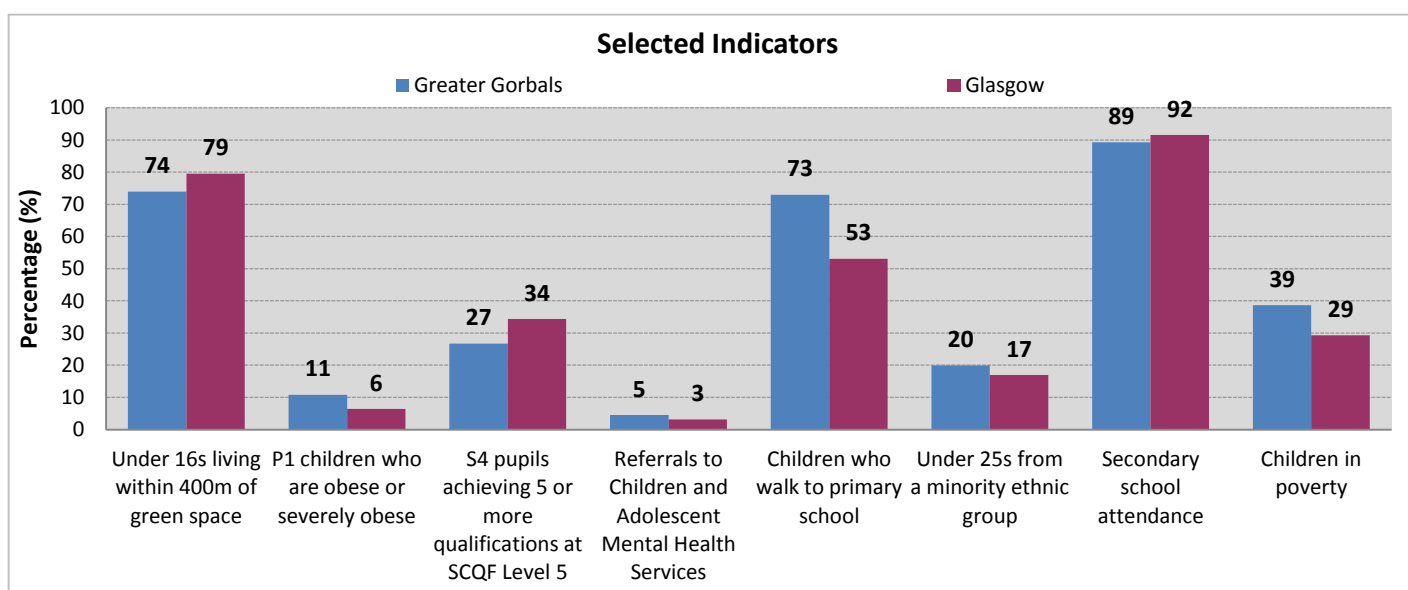

Neighbourhood Comparisons with Glasgow

The proportion of school age children in Greater Gorbals is lower than Glasgow as a whole. 20% of under 25s are from a minority ethnic group. 74% of children live within 400m of green space. The neighbourhood has more referrals to the Scottish Children's Reporter Administration (+60%) and offenders (+55%) and higher levels of obesity in P1 children (+70%) than Glasgow overall. S4 pupil attainment is lower (-22%) than the Glasgow average and 79% of children leaving school go onto a positive destination (higher/further education, employment or training). Likely development difficulties in pre-school children are higher than the Glasgow average (+41%) and communication delay in young children is also higher than average (+31%).

Domain	Indicator	Count	Rate	Difference from Glasgow	Period
Demography	Population aged 0 to 4	573	6%	+8%	2015
	Population aged 5 to 11	572	6%	-6%	2015
	Population aged 12 to 17	417	5%	-17%	2015
	Population aged 18 to 24	960	11%	-11%	2015
	Birth rate (per 1,000 pop'n)	109	12.6	+3%	2013
	Under 25s from a minority ethnic group	483	20%	+18%	2011

	Babies exposed to passive smoking	N/A	11%	-29%	2014/15
	Babies with birth weight below 2500g	9	3%	+4%	2013 - 2015
Culture and Environment	Children who walk to primary school	N/A	73%	+38%	2008 - 2015
	Under 16s living within 400m of green space	970	74%	-7%	2014
	P1 children who are obese or severely obese	N/A	11%	+70%	2012/13 - 2014/15
	Hospitalisations for dental treatment (per 1,000 pop'n under 16)	22	16.7	+25%	2014
Crime and Safety	Referrals to Scottish Children's Reporter Administration ⁶	38	3%	+60%	2015/16
	Offenders (per 1,000 pop'n aged 8 to 18)	37	46.2	+55%	2015/16
	Victims of crime (per 1,000 pop'n aged 8 to 18)	25	31.2	+48%	2015/16
	Emergency hospitalisations due to assault (per 1,000 pop'n under 25)	N/A	2.2	+64%	2010/11 - 2014/15
	Emergency hospitalisations for unintentional injuries (per 1,000 pop'n under 15)	N/A	6.1	-39%	2010/11 - 2014/15
Socio-Economic	Children in poverty	555	39%	+32%	2013
	Lone parent households	452	53%	+32%	2011
	Overcrowded households with children	294	24%	+31%	2011
Learning and Education	Children with communication delay at 27 to 30 months	53	31%	+31%	2014
	S4 pupils achieving 5 or more qualifications at SCQF Level 5	20	27%	-22%	2012 - 2013
	Secondary school attendance	N/A	89%	-3%	2013/14
	School leavers with a positive destination	46	79%	-12%	2013
	16 to 19 year olds not in employment, education or training	137	36%	+31%	2012
Health and Wellbeing	Pre-school children with likely development difficulties	N/A	10%	+41%	2012 - 2014
	Referrals to Children and Adolescent Mental Health Services	63	5%	+43%	2015/16
	Male healthy life expectancy (years)	N/A	50.6	-10%	2011
	Female healthy life expectancy (years)	N/A	53.3	-9%	2011
	Under 25s whose day-to-day activities are limited by disability	150	6%	+4%	2011

The number of 18-24 year olds in Greater Gorbals has decreased by 3% since 2011, while the numbers of 0-4 and 5-11 year olds have increased by 13% and 20%, respectively. Healthy life expectancy for males is approximately 5 years lower than Glasgow as a whole and 6 years lower for females.

Pupil attainment in Greater Gorbals is lower than in Glasgow overall, while child poverty and P1 obesity levels are higher than the Glasgow average. While fewer children than average live in proximity to green space, primary school children are more likely to walk to school when compared to the Glasgow average. Secondary school attendance is lower than Glasgow as a whole while referrals to children and adolescent mental health services and the proportion of children and young people from minority ethnic groups are higher.

Notes

1. Data sources: Census 2011, GCPH, Glasgow City Council, HMRC - Child Poverty Unit, ISD Scotland, National Records of Scotland (NRS), Transport Scotland, Sustrans, Police Scotland, the Scottish Government and the Urban Big Data Centre, Glasgow University.
2. Indicators are aggregated using latest available datazone (2001 or 2011); neighbourhood boundaries based on 2001 datazones.
3. All count figures of less than 5 (denoted as '< 5') have been suppressed to avoid any potential identification.
4. Populations presented in the population trend chart, also used to calculate healthy life expectancy estimates, use NRS small area population estimates for the years 2011 - 2015.
5. 'Healthy life expectancy' is an estimate of the average number of years people are likely to spend in good health. It is shorter than 'life expectancy' because it excludes years likely to be spent in fair or poor health. It is calculated using population estimates, death registrations and self-assessed health from the 2011 Census.
6. Denotes children referred to the Scottish Children's Reporter Administration for an offence or non-offence related reason.
7. A notes and definitions document providing further information on the indicators presented in the profile can be found in the Profiles section of www.understandingglasgow.com/profiles.
