

Ibrox and Kingston

Ibrox and Kingston is a neighbourhood in the south of Glasgow with a population of 13,638.

Neighbourhood comparisons with Glasgow

Women in Ibrox and Kingston live, on average, three years longer than men. This area has a high proportion of people from minority ethnic backgrounds compared to the Glasgow average.

Group	Indicator	Count	Rate	Difference from Glasgow	Difference from Glasgow (% , years)
Population	People aged 0 - 15	1,771	13.0%	-16.0%	
	People aged 16 - 64	10,685	78.3%	+11.2%	
	People aged 65 - 74	671	4.9%	-39.5%	
	People aged 75 and over	511	3.7%	-36.8%	
	People from minority ethnic backgrounds	4,223	31.2%	+62.2%	
Households	Lone-parent households	927	7.1%	-30.9%	
	Householders living alone	3,341	25.5%	+18.4%	
	Single-pensioner households	491	7.1%	-40.3%	
	Owner-occupied households	2,334	33.8%	-27.7%	
	Socially-rented households	2,021	29.3%	-16.1%	
	Overcrowded households	405	5.9%	+24.5%	
Environment	People who travel to work by walking, bike, public transport	2,267	34.2%	+29.0%	
	Households with one or more cars	3,274	47.4%	-14.9%	
Socio-economic	People with grade D or E social classification	2,977	22.0%	+0.6%	
	People in employment	7,232	53.5%	+12.7%	
Education	Adults with qualifications at Higher level and above	6,536	48.4%	+21.1%	
Poverty	Income deprivation (SIMD)	2,380	18.1%	-7.1%	
	Employment deprivation (SIMD)	1,366	13.3%	-2.2%	
	Children living in poverty	578	32.6%	+22.2%	
Health	People in "good" or "very good" health	10,579	78.3%	+3.0%	
	People limited "a lot" or "a little" by disability	3,044	22.5%	-13.5%	
	Male life expectancy at birth		71.2	-2.2	
	Female life expectancy at birth		74.6	-3.6	

Note: Different indicators use different population bases to calculate rates, depending on the underlying data source. See definitions and data sources for more information.

Neighbourhood/Area trends

Life expectancy at birth

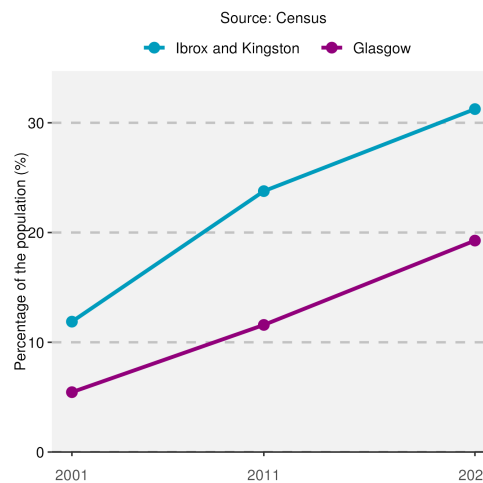

Life expectancy for both males and females has fallen in recent years in Ibrox and Kingston and is below the Glasgow average. In the most recent period shown (2018-2022), life expectancy in this area is lower than the Scottish average.

Population by age group

Percentage of total population from a minority ethnic group

The overall population of Ibrox and Kingston increased between 2001 and 2022. This is largely due to fluctuations in all age groups. The percentage of the total neighbourhood population from a minority ethnic background increased from 11.9% in 2001 to 31.2% in 2022 and was above the Glasgow average.

Notes

1. Data sources: Scottish Index of Multiple Deprivation (SIMD) 2020, Census 2022, 2011, and 2001, National Records of Scotland (NRS).
2. Populations presented in the population trend chart and used to calculate life expectancy estimates are taken from NRS small area population estimates and are based on: the 2001 and 2011 Census for years 2001-2010; and the 2011 and 2022 Census for years 2011-2022.
3. This publication has used small area population estimate data published by the NRS on 21 November 2021. The NRS update their small area population estimates and previous estimates on an annual basis therefore this data is only representative of the data published upon this date. For further information see: <https://www.nrscotland.gov.uk/publications/small-area-population-estimates-mid-2022/>
4. The Income deprivation and Employment deprivation indicators are derived from SIMD 2020, more information on this deprivation index can be found at: <https://www.gov.scot/collections/scottish-index-of-multiple-deprivation-2020/>.
5. Life expectancies are calculated based on population estimates and death registrations. 95% confidence intervals have been added on the graphs to the neighbourhood data to give an indication of their accuracy. The 95% confidence interval for the Glasgow and/or Scotland comparison line has been removed due to the size of the population. This resulted in the confidence interval sitting on the data line making it unreadable. The x-axes of the life expectancy graphs give the mid-year for each life expectancy estimate e.g. 2020 represents the life expectancy estimate for the period 2018-2022.
6. A notes and definitions document providing further information on the variables presented in the profile can be found in the Profiles section of the Understanding Glasgow website: <https://www.understandingglasgow.com/profiles/neighbourhood-profiles>.
