

# Pollok

Pollok is a neighbourhood in the south of Glasgow with a population of 12,504.

## Neighbourhood comparisons with Glasgow

Women in Pollok live, on average, four years longer than men. This area has a high proportion of owner-occupied households compared with the Glasgow average. The proportion of households living alone and socially-rented households are lower than the Glasgow average.

Group	Indicator	Count	Rate	Difference from Glasgow	Difference from Glasgow (% , years)
<b>Population</b>	People aged 0 - 15	2,120	17.0%	+9.7%	10
	People aged 16 - 64	8,309	66.5%	-5.7%	-5
	People aged 65 - 74	1,167	9.3%	+14.7%	15
	People aged 75 and over	908	7.3%	+22.5%	25
	People from minority ethnic backgrounds	1,923	15.4%	-20.0%	-20
<b>Households</b>	Lone-parent households	1,048	8.6%	-16.2%	-15
	Householders living alone	1,543	12.6%	-41.4%	-40
	Single-pensioner households	614	12.1%	+1.5%	1
	Owner-occupied households	3,607	71.0%	+51.9%	50
	Socially-rented households	1,129	22.2%	-36.3%	-35
	Overcrowded households	176	3.5%	-26.4%	-25
<b>Environment</b>	People who travel to work by walking, bike, public transport	905	15.6%	-41.1%	-40
	Households with one or more cars	3,666	72.2%	+29.5%	30
<b>Socio-economic</b>	People with grade D or E social classification	2,288	18.3%	-16.3%	-15
	People in employment	6,049	48.5%	+2.1%	2
<b>Education</b>	Adults with qualifications at Higher level and above	4,106	32.9%	-17.7%	-15
<b>Poverty</b>	Income deprivation (SIMD)	1,947	15.5%	-20.7%	-20
	Employment deprivation (SIMD)	896	10.7%	-20.9%	-20
	Children living in poverty	442	20.8%	-21.9%	-20
<b>Health</b>	People in "good" or "very good" health	9,475	75.9%	-0.1%	0
	People limited "a lot" or "a little" by disability	3,333	26.7%	+2.6%	2
	Male life expectancy at birth		76.1	+2.7	2
	Female life expectancy at birth		80.0	+1.9	1

Note: Different indicators use different population bases to calculate rates, depending on the underlying data source. See definitions and data sources for more information.

# Neighbourhood/Area trends

## Life expectancy at birth

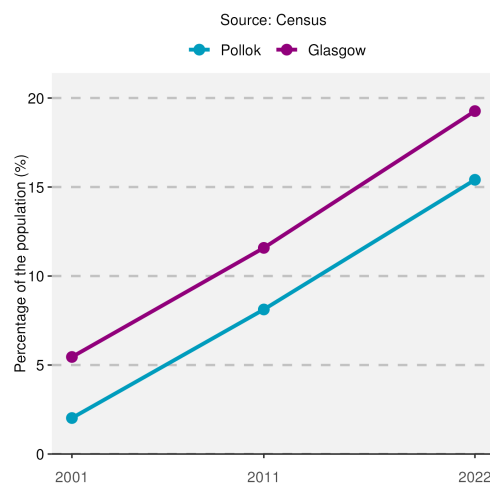

Life expectancy for both males and females has fallen in recent years in Pollok but is above the Glasgow average. In the most recent period shown (2018-2022), life expectancy in this area is lower than the Scottish average.

## Population by age group

## Percentage of total population from a minority ethnic group

The overall population of Pollok increased between 2001 and 2022. This is due to increases in all age groups. The percentage of the total neighbourhood population from a minority ethnic background increased from 2% in 2001 to 15.4% in 2022 but remained below the Glasgow average.

## Notes

1. Data sources: Scottish Index of Multiple Deprivation (SIMD) 2020, Census 2022, 2011, and 2001, National Records of Scotland (NRS).
2. Populations presented in the population trend chart and used to calculate life expectancy estimates are taken from NRS small area population estimates and are based on: the 2001 and 2011 Census for years 2001-2010; and the 2011 and 2022 Census for years 2011-2022.
3. This publication has used small area population estimate data published by the NRS on 21 November 2021. The NRS update their small area population estimates and previous estimates on an annual basis therefore this data is only representative of the data published upon this date. For further information see: <https://www.nrscotland.gov.uk/publications/small-area-population-estimates-mid-2022/>
4. The Income deprivation and Employment deprivation indicators are derived from SIMD 2020, more information on this deprivation index can be found at: <https://www.gov.scot/collections/scottish-index-of-multiple-deprivation-2020/>.
5. Life expectancies are calculated based on population estimates and death registrations. 95% confidence intervals have been added on the graphs to the neighbourhood data to give an indication of their accuracy. The 95% confidence interval for the Glasgow and/or Scotland comparison line has been removed due to the size of the population. This resulted in the confidence interval sitting on the data line making it unreadable. The x-axes of the life expectancy graphs give the mid-year for each life expectancy estimate e.g. 2020 represents the life expectancy estimate for the period 2018-2022.
6. A notes and definitions document providing further information on the variables presented in the profile can be found in the Profiles section of the Understanding Glasgow website: <https://www.understandingglasgow.com/profiles/neighbourhood-profiles>.
