

# Pollokshields West

Pollokshields West is a neighbourhood in the south of Glasgow with a population of 7,302.

## Neighbourhood comparisons with Glasgow

Women in Pollokshields West live, on average, half a year longer than men. The proportion of people from a minority ethnic background (39%) is over 100% above the Glasgow average. There are low levels of lone-parent and socially-rented households as well as income and employment deprivation.

Group	Indicator	Count	Rate	Difference from Glasgow	Difference from Glasgow (% , years)
<b>Population</b>	People aged 0 - 15	1,163	15.9%	+3.1%	3.1%
	People aged 16 - 64	4,555	62.4%	-11.5%	-11.5%
	People aged 65 - 74	897	12.3%	+51.0%	51.0%
	People aged 75 and over	687	9.4%	+58.8%	58.8%
	People from minority ethnic backgrounds	2,854	39.3%	+103.8%	103.8%
<b>Households</b>	Lone-parent households	228	3.2%	-69.0%	-69.0%
	Householders living alone	770	10.7%	-50.3%	-50.3%
	Single-pensioner households	367	13.4%	+12.4%	12.4%
	Owner-occupied households	2,403	87.6%	+87.5%	87.5%
	Socially-rented households	78	2.8%	-91.8%	-91.8%
	Overcrowded households	129	4.7%	-0.1%	-0.1%
<b>Environment</b>	People who travel to work by walking, bike, public transport	607	18.3%	-31.2%	-31.2%
	Households with one or more cars	2,286	83.3%	+49.5%	49.5%
<b>Socio-economic</b>	People with grade D or E social classification	610	8.4%	-61.7%	-61.7%
	People in employment	3,464	47.7%	+0.4%	0.4%
<b>Education</b>	Adults with qualifications at Higher level and above	3,946	54.3%	+35.9%	35.9%
<b>Poverty</b>	Income deprivation (SIMD)	472	6.6%	-66.4%	-66.4%
	Employment deprivation (SIMD)	179	4.0%	-70.8%	-70.8%
	Children living in poverty	199	17.1%	-35.9%	-35.9%
<b>Health</b>	People in "good" or "very good" health	6,016	82.8%	+8.9%	8.9%
	People limited "a lot" or "a little" by disability	1,436	19.8%	-24.1%	-24.1%
	Male life expectancy at birth		83.3	+10.0	10.0
	Female life expectancy at birth		83.8	+5.7	5.7

Note: Different indicators use different population bases to calculate rates, depending on the underlying data source. See definitions and data sources for more information.

# Neighbourhood/Area trends

## Life expectancy at birth

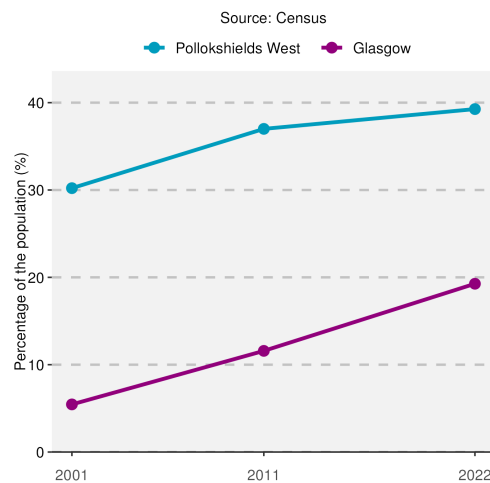

Life expectancy for females has risen in recent years in Pollokshields West and is above the Glasgow average. In the most recent period shown (2018-2022), life expectancy in this area is higher than the Scottish average.

## Population by age group

## Percentage of total population from a minority ethnic group

The overall population of Pollokshields West stayed roughly the same between 2001 and 2022. The overall population stayed roughly the same between 2001 and 2022, with fluctuations across age groups largely balancing out. The percentage of the total neighbourhood population from a minority ethnic background increased from 30.2% in 2001 to 39.3% in 2022 and was above the Glasgow average.

## Notes

1. Data sources: Scottish Index of Multiple Deprivation (SIMD) 2020, Census 2022, 2011, and 2001, National Records of Scotland (NRS).
2. Populations presented in the population trend chart and used to calculate life expectancy estimates are taken from NRS small area population estimates and are based on: the 2001 and 2011 Census for years 2001-2010; and the 2011 and 2022 Census for years 2011-2022.
3. This publication has used small area population estimate data published by the NRS on 21 November 2021. The NRS update their small area population estimates and previous estimates on an annual basis therefore this data is only representative of the data published upon this date. For further information see: <https://www.nrscotland.gov.uk/publications/small-area-population-estimates-mid-2022/>
4. The Income deprivation and Employment deprivation indicators are derived from SIMD 2020, more information on this deprivation index can be found at: <https://www.gov.scot/collections/scottish-index-of-multiple-deprivation-2020/>.
5. Life expectancies are calculated based on population estimates and death registrations. 95% confidence intervals have been added on the graphs to the neighbourhood data to give an indication of their accuracy. The 95% confidence interval for the Glasgow and/or Scotland comparison line has been removed due to the size of the population. This resulted in the confidence interval sitting on the data line making it unreadable. The x-axes of the life expectancy graphs give the mid-year for each life expectancy estimate e.g. 2020 represents the life expectancy estimate for the period 2018-2022.
6. A notes and definitions document providing further information on the variables presented in the profile can be found in the Profiles section of the Understanding Glasgow website: <https://www.understandingglasgow.com/profiles/neighbourhood-profiles>.
