

# Toryglen

Toryglen is a neighbourhood in the south of Glasgow with a population of 5,254.

## Neighbourhood comparisons with Glasgow

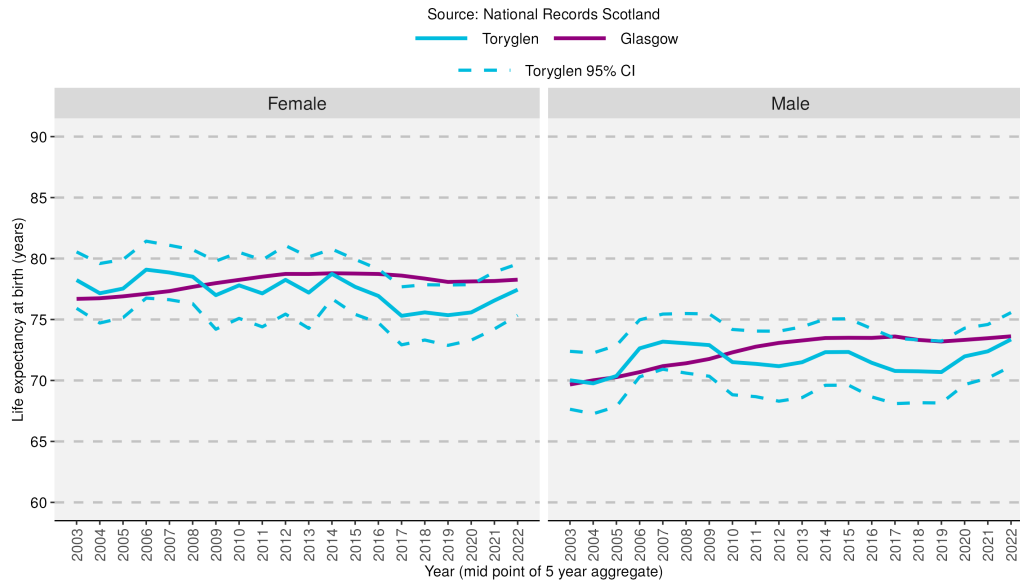

Women in Toryglen live, on average, four years longer than men. There is a higher percentage of people aged 75 years and over (7%) which is 28% higher than the Glasgow average. Lone parents make up 10% of households and 47% of people live in socially-rented households.

Group	Indicator	Count	Rate	Difference from Glasgow	Difference from Glasgow (% , years)
<b>Population</b>	People aged 0 - 15	1,023	19.5%	+28.1%	28.1%
	People aged 16 - 64	3,367	64.1%	-9.5%	-9.5%
	People aged 65 - 74	475	9.0%	+10.0%	10.0%
	People aged 75 and over	389	7.4%	+28.3%	28.3%
	People from minority ethnic backgrounds	1,138	22.1%	+14.5%	14.5%
<b>Households</b>	Lone-parent households	221	9.5%	+41.3%	41.3%
	Householders living alone	971	41.9%	-4.2%	-4.2%
	Single-pensioner households	335	14.5%	+21.4%	21.4%
	Owner-occupied households	1,018	43.9%	-6.0%	-6.0%
	Socially-rented households	1,082	46.7%	+33.9%	33.9%
	Overcrowded households	107	4.6%	-2.0%	-2.0%
<b>Environment</b>	People who travel to work by walking, bike, public transport	535	25.3%	-4.8%	-4.8%
	Households with one or more cars	1,198	51.7%	-7.3%	-7.3%
<b>Socio-economic</b>	People with grade D or E social classification	649	37.1%	+28.8%	28.8%
	People in employment	2,211	53.4%	-4.9%	-4.9%
<b>Education</b>	Adults with qualifications at Higher level and above	1,808	43.6%	-24.9%	-24.9%
<b>Poverty</b>	Income deprivation (SIMD)	1,214	24.5%	+25.3%	25.3%
	Employment deprivation (SIMD)	517	16.3%	+20.2%	20.2%
	Children living in poverty	294	28.9%	+8.1%	8.1%
<b>Health</b>	People in "good" or "very good" health	3,693	71.6%	-5.7%	-5.7%
	People limited "a lot" or "a little" by disability	1,583	30.7%	+17.9%	17.9%
	Male life expectancy at birth		73.4	-0.3	-0.3
	Female life expectancy at birth		77.4	-0.8	-0.8

Note: Different indicators use different population bases to calculate rates, depending on the underlying data source. See definitions and data sources for more information.

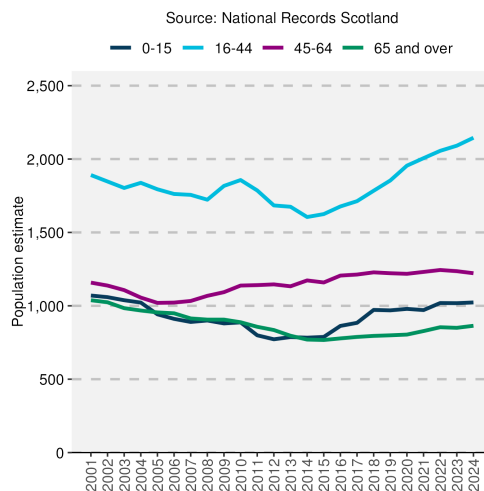

# Neighbourhood/Area trends

## Life expectancy at birth

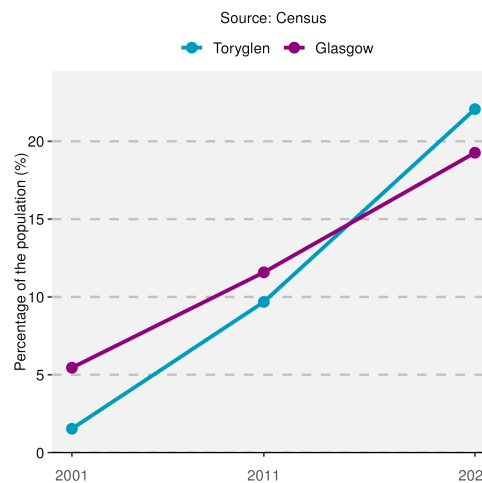

Life expectancy for both males and females has risen in recent years in Toryglen and is below the Glasgow average. In the most recent period shown (2020-2024), life expectancy in this area is lower than the Scottish average.

## Population by age group

## Percentage of total population from minority ethnic backgrounds

The overall population of Toryglen stayed roughly the same between 2001 and 2024. Variations across age groups largely balanced each other out. The percentage of the total neighbourhood population from a minority ethnic background increased from 1.5% in 2001 to 22.1% in 2022 and was above the Glasgow average.

## Notes

1. Data sources: Scottish Index of Multiple Deprivation (SIMD) 2020, Census 2022, 2011, and 2001, National Records of Scotland (NRS).
2. Populations presented in the population trend chart and used to calculate life expectancy estimates are taken from NRS small area population estimates and are based on: the 2001 and 2011 Census for years 2001-2010; and the 2011 and 2022 Census for years 2011-2024.
3. This publication has used small area population estimate data published by the NRS on 24 February 2026. The NRS update their small area population estimates and previous estimates on an annual basis therefore this data is only representative of the data published upon this date. For further information see: <https://www.nrscotland.gov.uk/publications/small-area-population-estimates-mid-2023-and-mid-2024-2011-data-zones/>
4. The Income deprivation and Employment deprivation indicators are derived from SIMD 2020, more information on this deprivation index can be found at: <https://www.gov.scot/collections/scottish-index-of-multiple-deprivation-2020/>.
5. Life expectancies are calculated based on population estimates and death registrations. 95% confidence intervals have been added on the graphs to the neighbourhood data to give an indication of their accuracy. The 95% confidence interval for the Glasgow and/or Scotland comparison line has been removed due to the size of the population. This resulted in the confidence interval sitting on the data line making it unreadable. The x-axes of the life expectancy graphs give the mid-year for each life expectancy estimate e.g. 2020 represents the life expectancy estimate for the period 2018-2022.
6. A notes and definitions document providing further information on the variables presented in the profile can be found in the Profiles section of the Understanding Glasgow website: <https://www.understandingglasgow.com/profiles/neighbourhood-profiles>.
