North Maryhill and Summerston

North Maryhill and Summerston is a neighbourhood in the north west of Glasgow with a population of 12,100.

Neighbourhood comparisons with Glasgow

Women in North Maryhill and Summerston live, on average, seven and a half years longer than men. Life expectancy for males and females is very similar to the Glasgow average. The percentage of the population living in income and employment deprivation is also very similar to the Glasgow average. A high percentage of people, 86%, live within 500 metres of vacant or derelict land.
Life expectancy for both males and females has risen in recent years in North Maryhill and Summerston. Life expectancy for both males and females has been very similar to the Glasgow average throughout the period shown.

The overall population in North Maryhill and Summerston decreased slightly by 3% between 1996 and 2012, largely due to reductions in children and people aged 16-44 living in the area. The percentage of the total neighbourhood population from a minority ethnic group increased from 4% in 2001 to 8% in 2011, but remained lower than the Glasgow average between 2001 and 2011.

Notes

2. Populations presented in the population trend chart and used to calculate life expectancy estimates are taken from NRS small area population estimates and are based on: the 2001 census for the years 1996 - 2001; both the 2001 and 2011 census for the years 2002 - 2010; and the 2011 census for the years 2011-2012.
3. The Income deprivation and Employment deprivation indicators are derived from SIMD 2012, more information on this deprivation index can be found at: [http://simd.scotland.gov.uk/publication-2012](http://simd.scotland.gov.uk/publication-2012)
4. Life expectancies are calculated based on population estimates and death registrations. 95% confidence intervals have been added on the graphs to give an indication of their accuracy. The x-axes of the life expectancy graphs give the mid-year for each life expectancy estimate e.g. 2010 represents the life expectancy estimate for the period 2008 - 2012.
5. A notes and definitions document providing further information on the variables presented in the profile can be found in the Profiles section of the Understanding Glasgow website.
