

Govanhill has a population of 4,428 children and young people (aged 0-24 years).

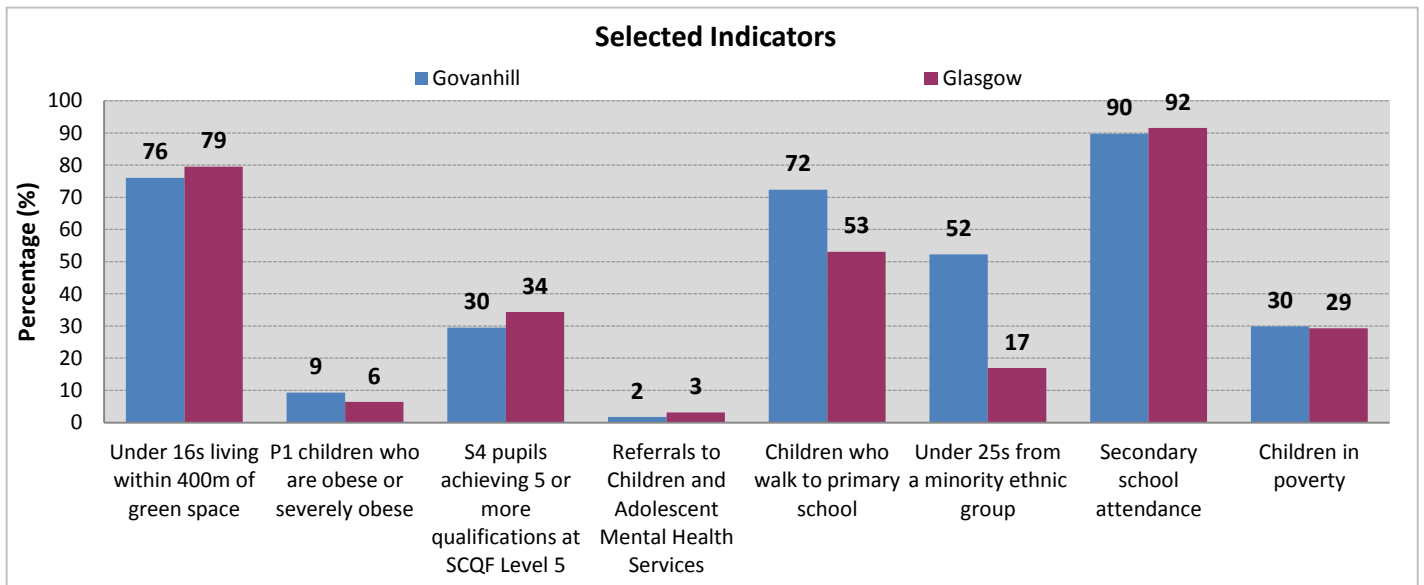

Neighbourhood Comparisons with Glasgow

The proportion of school age children in Govanhill is on a par with Glasgow as a whole. 52% of under 25s are from a minority ethnic group. 76% of children live within 400m of green space. The neighbourhood has more referrals to the Scottish Children's Reporter Administration (+63%), offenders (+250%), victims of crime (+142%) and overcrowding (+88%) than in Glasgow overall. S4 pupil attainment is lower (-14%) than the Glasgow average and 85% of children leaving school go onto a positive destination (higher/further education, employment or training). Likely development difficulties in pre-school children are lower than the Glasgow average (-6%) but communication delay in young children is higher than average (+50%).

Domain	Indicator	Count	Rate	Difference from Glasgow	Period
Demography	Population aged 0 to 4	1,280	9%	+49%	2015
	Population aged 5 to 11	1,059	7%	+8%	2015
	Population aged 12 to 17	766	5%	-6%	2015
	Population aged 18 to 24	1,323	9%	-24%	2015
	Birth rate (per 1,000 pop'n)	282	19.5	+60%	2013

	Babies with birth weight below 2500g	32	4%	+63%	2013 - 2015
Culture and Environment	Children who walk to primary school	N/A	72%	+36%	2008 - 2015
	Under 16s living within 400m of green space	2,037	76%	-4%	2014
	P1 children who are obese or severely obese	N/A	9%	+45%	2012/13 - 2014/15
	Hospitalisations for dental treatment (per 1,000 pop'n under 16)	59	22.2	+67%	2014
Crime and Safety	Referrals to Scottish Children's Reporter Administration ⁶	78	3%	+63%	2015/16
	Offenders (per 1,000 pop'n aged 8 to 18)	151	104.1	+250%	2015/16
	Victims of crime (per 1,000 pop'n aged 8 to 18)	74	51.0	+142%	2015/16
	Emergency hospitalisations due to assault (per 1,000 pop'n under 25)	N/A	1.8	+31%	2010/11 - 2014/15
	Emergency hospitalisations for unintentional injuries (per 1,000 pop'n under 15)	N/A	8.3	-18%	2010/11 - 2014/15
Socio-Economic	Children in poverty	985	30%	+2%	2013
	Lone parent households	445	31%	-23%	2011
	Overcrowded households with children	652	34%	+88%	2011
Learning and Education	Children with communication delay at 27 to 30 months	166	35%	+50%	2014
	S4 pupils achieving 5 or more qualifications at SCQF Level 5	31	30%	-14%	2012 - 2013
	Secondary school attendance	N/A	90%	-2%	2013/14
	School leavers with a positive destination	87	85%	-5%	2013
	16 to 19 year olds not in employment, education or training	268	41%	+48%	2012
Health and Wellbeing	Pre-school children with likely development difficulties	N/A	7%	-6%	2012 - 2014
	Referrals to Children and Adolescent Mental Health Services	50	2%	-44%	2015/16
	Male healthy life expectancy (years)	N/A	53.8	-4%	2011
	Female healthy life expectancy (years)	N/A	55.6	-5%	2011
	Under 25s whose day-to-day activities are limited by disability	243	6%	-2%	2011

The number of 18-24 year olds in Govanhill has decreased by 12% since 2011, while the number of 0-4 year olds has increased by 33%. Healthy life expectancy for males is approximately 2 years lower than Glasgow as a whole and 3 years lower for females.

Pupil attainment in Govanhill is lower than in Glasgow overall, while child poverty and P1 obesity levels are higher than the Glasgow average. While fewer children than average live in proximity to green space, primary school children are more likely to walk to school when compared to the Glasgow average. Secondary school attendance and referrals to children and adolescent mental health services are lower with the Glasgow average while the proportion of children and young people from minority ethnic groups is higher.

Notes

1. Data sources: Census 2011, GCPH, Glasgow City Council, HMRC - Child Poverty Unit, ISD Scotland, National Records of Scotland (NRS), Transport Scotland, Sustrans, Police Scotland, the Scottish Government and the Urban Big Data Centre, Glasgow University.
2. Indicators are aggregated using latest available datazone (2001 or 2011); neighbourhood boundaries based on 2001 datazones.
3. All count figures of less than 5 (denoted as '< 5') have been suppressed to avoid any potential identification.
4. Populations presented in the population trend chart, also used to calculate healthy life expectancy estimates, use NRS small area population estimates for the years 2011 - 2015.
5. 'Healthy life expectancy' is an estimate of the average number of years people are likely to spend in good health. It is shorter than 'life expectancy' because it excludes years likely to be spent in fair or poor health. It is calculated using population estimates, death registrations and self-assessed health from the 2011 Census.
6. Denotes children referred to the Scottish Children's Reporter Administration for an offence or non-offence related reason.
7. A notes and definitions document providing further information on the indicators presented in the profile can be found in the Profiles section of www.understandingglasgow.com/profiles.
