Children and young people's profiles of Glasgow neighbourhoods, available at www.understandingglasgow.com/profiles

The numbers of 0-4 and 5-11 year olds in North Maryhill and Summerston have increased by 3% and 4%, respectively, since 2011, while the number of 18-24 year olds has decreased by 7%. Healthy life expectancy for males is on a par with Glasgow as a whole and is 1 year lower for females.

Pupil attainment in North Maryhill and Summerston is higher than in Glasgow overall, while child poverty and P1 obesity levels are on a par with the Glasgow average. Although more children than average live in proximity to green space, primary school children are less likely to walk to school. Secondary school attendance and referrals to children and adolescent mental health services are also on a par with the Glasgow average while the proportion of children and young people from minority ethnic groups is lower.

Notes

1. Data sources: Census 2011, GCPH, Glasgow City Council, HMRC - Child Poverty Unit, ISD Scotland, National Records of Scotland (NRS), Transport Scotland, Sustrans, Police Scotland, the Scottish Government and the Urban Big Data Centre, Glasgow University.

2. Indicators are aggregated using latest available datazone (2001 or 2011); neighbourhood boundaries based on 2001 datazones.

3. All count figures of less than 5 (denoted as '< 5') have been suppressed to avoid any potential identification.

4. Populations presented in the population trend chart, also used to calculate healthy life expectancy estimates, use NRS small area population estimates for the years 2011 - 2015.

5. 'Healthy life expectancy' is an estimate of the average number of years people are likely to spend in good health. It is shorter than 'life expectancy' because it excludes years likely to be spent in fair or poor health. It is calculated using population estimates, death registrations and self-assessed health from the 2011 Census.

6. Denotes children referred to the Scottish Children's Reporter Administration for an offence or non-offence related reason.

7. A notes and definitions document providing further information on the indicators presented in the profile can be found in the Profiles section of www.understandingglasgow.com/profiles.
